Forecast For Wales
Issued by Met Office Exeter
at 0400 on Saturday 11 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Grey and increasingly murky today with rain at times.

Today:
A generally cloudy and increasingly damp day with rain and drizzle in the west spreading east to most areas. Becoming milder but with extensive low cloud and hill fog. Maximum temperature 12 deg C (54 deg F).

Tonight:
Remaining generally cloudy this evening and overnight with rain and drizzle at times, tending to become lighter by the morning. Very mild and remaining frost free. Minimum temperature 8 deg C (46 deg F).

Sunday:
Another largely cloudy day with the odd pocket of drizzly rain at times. Some brightness is possible, particularly in the northeast and very mild here. Becoming increasingly windy later. Maximum temperature 13 deg C (55 deg F).

Outlook for Monday to Wednesday:
Cloudy with rain, occasionally heavy, on Monday. Drier and brighter on Tuesday before further rain moves south through Wednesday. Breezy at times but staying on the mild side throughout.
